

We grew up in a Village called Ceprig and we were eager to set sail on an open sea to fly with the ship and one day we will. William Fort my name will be seen in books to open in the future. I was and will be a God Person. Will I be forced and sected in my name I will tell you that I will contribute to the cause of the Village. I was the best sourcefull spectre of ship driving. Wind is soft these days. It will continue to be dry when in water all is written in the book I will expose to you is Islandia.

June 1st 1365th Year

A sunny day we say to be much of a Shipbuilder are you. Am I not. William was the first to build the ship in his mind. Ilo Mean was the best pirate of all. When he wanted to call the fortune he yelled grow tomatoes and save one for the pirate sail. We started with Zlobe Tren and Ilo Mean to plan the ships that will sail and trade in Islandia. Zlobe Tren works and cooks while we play the part in plan. I will draw you a ship says Ilo Mean. I fold you the sword how it will be made. We will buy them that's how. Drawing the ship all of us means we know much of ships right sir. Sole and Soloing the ship.

June 30th 1365th Year

I wrote it goddamn we forget the sun will fall down shortly we need to finish the ship in life form to take it's life form. I shall be brain.

1. Ship Nathajan Cladus :

17p-16p ortodox cloud Claud Furniture with two black ribs on the back saying pirate all known stories of drawings in the wood engraved with an F which stands for pound each pound kreach seven bottles of rum boxes and a wine cellar with brew 4 rooms of 2 villagers that quarters:

17 -16 118371pints

It was a great summer all of you will contribute to the building of the ship. All of us will be the next summer on traveling with shipyards and fore sell.

Ilo Mean William Fort and Zlobe Tren 1365th Year

July 1st 1365th Year

We build corages in the sand and we put the architecture of the arch bishop drawing of ship stable which will arm the trenches to the wall of brick wood. I will put down everything from dimensions here for you to draw your liquid pencil and pen were too both he wore them.

Building it treespassed time and soon we started coking the back of the ship to has some wood of richest element so we got the wood from high in the mountains. William Fort will be the next Ship Sailer and Builder within the English Cord of Humans called in the village of ours will be near North Macedonia which we now call ourselves English people. For we know the point was 9 kilometer range of the ship state and village arch to the mountains. We found wolf tracks also. New to me we finished the Cabin now we go more for the Rich Wood.

Cabin was Ready we have 3 more to go. We will william trans market. Will fort the best builder finished the Cabin. Ilo planned the best. Zlobe finished it with a blow of combo building.

August 1st 1365th Year

We started the basic structure of known drawing will be completed with a change we drew the change on the plan book and we started the rooms this time too but 3 for us will be with a Cargo. Will be the most known ship in the village people come and visit us bringing us contracts for sailing. Will I be William or not when I come back. A question. Working on our way to the Rich Wood. Near Moldavia sea it has great ocean above it. We may be ware but we know the World will be unpredicted dimension. Enter the Realm of William which he now confronts the Devil 666 with a sword and a Musket.

September 1st 1365th Year

We finished with a hard weather now the Cabin of the Captains will be ours to take. We didn't had much time for the structural deck but we used grand technology Sailing and Building within the meter of connection between the new book we bought from Rothchild the book of Haytham Kenway. It will be built in a matter of months.

Ship owns humans which will convert to Sailors.

October 1st 1365th Year

Ship Fastened build and that is it.7 knots 7 cots 7 pots vile and a fort for my master.

1.Nails with grasp.

2.Fill the Paint.

3.Win the Mind.

I will build it in a Second says Ilo .William laughs.

Ship was built on October 29st 1365th Year

Starting of the book :

We were quite sure that we need English to travel with speed.We learned of the language.We drew dimensions and knots of travel paths.We found it has to be betted in the nail.

Setting Sail: Moravija 233km to Indalia 290km to Saveria 191km

Moravija was full of Cannabis.It had Long haired people with literature of the Ship Sailling movement in these areas.Cannabis Moravija we called it we started to grow on the ship in the cabin william was the Dinosaur Human which he liked the most to smoke and tree himself in the cabin.Ilo went and soiled the ground so we got unique plant.We smoked in the plant as we enhaled it stuck us and made us Templars.The Cross has something to do with the people here are Vampiric and are Desendants of Christ.

Indalia was the great place to take a walk on the beach of Ca which we dug and found the Coca seed for the First Time.But here in Moravija was the Cannabis seed so it takes the difference here lived Dinosaurs.

Moravija and Indalia had quite good travelling point which we built Cargo and Marketplace for the 3 of Islands.

We returned home after 20 years of Sailling and Trading so we lived Rich Persona and we no longer were Pirates but Traders and Templars from the use of Coca and Cannabis.

Thank you,your writer Hristijan Joshevki
